Kelly, Rebecca Lewin LeDocq Abstract In many universities across the country writing is being stressed throughout the curriculum. Faculty see the need to expose students to more writing and to teach the students the correct writing styles for their disciplines. Since 1991 the ... A First Course in Linear Algebra Most students taking a course in linear algebra will have completed courses in differential and integral calculus, and maybe also multivariate calculus, and will typically be second-year students in university. FUNDAMENTALS OF LINEAR ALGEBRA Linear algebra is one of the most applicable areas of mathematics. It is used by the pure mathematician and by the mathematically trained scientists of all disciplines. This book is directed more at the former audience than the latter, but it is hoped that the writing is sufficiently clear with enough detail so that the anyone reading the text can understand it. While the book is written in ... Vector Algebra and Calculus - University of Oxford Vector Algebra and Calculus 1. Revision of vector algebra, scalar product, vector product 2. Triple products, multiple products, applications to geometry 3. Differentiation of vector functions, applications to mechanics 4. Scalar and vector fields. Line, surface and volume integrals, curvilinear coordinates 5. Vector operators — grad, div and curl 6. Vector Identities, curvilinear co ...
