The content standards presented in this chapter outline what students should know, understand, and be able to do in natural science. The content standards are a complete set of outcomes for students; they do not prescribe a curriculum. These standards were designed and developed as one component of Evolution - Wikipedia Evolution is change in the heritable characteristics of biological populations over successive generations. These characteristics are the expressions of genes that are passed on from parent to offspring during reproduction. Facets of Human Nature - Bill Meacham Introduction. The goal is to find out what human nature consists of in order to determine what is good for humans and hence what would constitute a fulfilling life. Introduction to Physical Anthropology - Arnie Schoenberg Figure 7 "Evolution is the fundamental idea in all of life science", (Permission: embeddable from Sizzle, Big Think) We need to stress evolutionary theory because it is a fundamental explanatory device in biology.
