Coaching Science | Institute of Coaching Coaching science is the scientific foundation that underpins the work of all professional coaches. The translation of science into coaching practice is the life force of the Institute of Coaching. The broad and deep scientific foundation includes basic and applied research, theories and models, that support or inform coaching practices. Wiley: Coaching Science: Theory into Practice - Terry ... Coaching Science will bridge that gap covering both theory and practice and, most important, showing how theory informs practice. The book will be multi- and, to some extent, inter-disciplinary, as it is not possible to examine the interaction between coach, performer and task from a single discipline perspective.
