Image: Ditherington Mill showing the malt kiln built by William Jones following the end of flax spinning in 1886. Photograph by: Nabi Heydari (April 2003) Summary. Ditherington Flax Mill is a grade I listed building. It lies in a semi-derelict state on the outskirts of Shrewsbury within a site which includes Grade II* structures. Ditherington Mill: Industrial Housing | Revolutionary Players Image: Terraced housing built between 1830 and 1850 on St Michael's Street, Shrewsbury, probably by private speculators, close to the Ditherington Mill complex. Photograph by: Nabi Heydari (April 2003) Marshall, Benyon and Bage first leased buildings for some of their employees in 1797 near to the factory. In later years small groups of dwellings were built. Ditherington Mill and the Industrial Revolution | RIBA ... Ditherington Mill and the Industrial Revolution (Item) (85777) - Ditherington Mill is rightly celebrated as having the first iron-framed building in the world. Its highly innovative structure provided a fireproof environment for industrial processes and is a predecessor of the technologies that today pepper our cities with skyscrapers. Ditherington Mill: Apprentice House, c 1800 ... Image: Front and side view of the first apprentice house for the Ditherington Mill for Marshall, Benyon and Bage at 56-59 St Michael's Street, Shrewsbury. Photograph by: Nabi Heydari (April 2003) Before June 1800 an apprentice house near to the factory was constructed by John Simpson. Documentary records show that the mill employed parish apprentices as early as April 1802. Ditherington Mill and the Industrial Revolution - Colum ... A detailed examination of the world's first iron framed building which illuminates many critical aspects of economic, social and technological history during the Industrial Revolution. Ditherington Mill and the Industrial Revolution - Colum Giles; Mike Williams - Oxford University Press Ditherington Mill and the Industrial Revolution (Book ... Ditherington Mill, located in a suburb of Shrewsbury, England, has been described by Historic England as the "father of the skyscraper." Its iron-framed, fireproof structure—the first of its kind—is the direct predecessor of the buildings that make up so much of the skyline of modern cities.
