It reviews how texture and viscosity are measured, including the physical interactions between the human body and food, objective methods of texture measurements, the latest advances in texture-measuring instruments, various types of liquid flow, and more. Basic Principles of Food Texture Measurement | SpringerLink Abstract. The three main acceptability factors for evaluating foods are appearance, flavor, and texture. If any of these three factors fails to reach expectations, the food will not be consumed, or if it is consumed, it will provoke negative consumer response.
