THE SCCP'S NOTES OF GUIDANCE FOR THE TESTING OF COSMETIC ... of cosmetic products has become very extensive and is common in most population groups within the European Union, although the degree and nature may vary within the different Member States. Annex 10 - ich.org Stability testing of active pharmaceutical ingredients and finished pharmaceutical products Introduction and background The guidance on Stability testing of active pharmaceutical ingredients and finished pharmaceutical products was published as Annex 2 in the World Health Organization (WHO) Technical Report Series, No. 953, 2009 (1). The aim of these regulatory guidelines is to outline the ... Cosmetics -- Guidelines on the stability testing of ... This review of the available guidelines that assess the stability of cosmetic products can serve as a technical/scientific framework to identify the most suitable methods for the assessment of the stability of cosmetic products. ISO/TR 18811:2018 does not aim to specify the conditions, parameters or criteria of stability testing. Stability Testing of Cosmetics - Makingcosmetics.com The purpose of stability testing cosmetic products is to ensure that a new or modified product meets the intended physical, chemical and microbiological quality standards as well as functionality and aesthetics when stored under appropriate conditions. Because the development cycle of cosmetic products is relatively short each manufacturer should design their own stability testing program such that it is economically reasonable and efficiently addresses the testing required. Cosmetic Stability and Compatibility Testing for EU market. There is no standard stability test guideline prescribed by regulatory authorities owing to a wide variety of cosmetic products and their inherent complexity. Thus, cosmetic companies are required to design and follow their own accelerated stability testing program such that it is economically reasonable and efficiently addresses the testing required.
